### A chronological journey through all FC Barcelona jerseys

November 2023 450 Pages Hardback

This is the first book about the history of FC Barcelona's jerseys. No one has ever made a historical study of how the club's first team has dressed since its early days and why.

This book is a thorough and clear examination of the approximately 200 different jerseys Barça has worn from the time of its foundation in 1899 to the present day. All of these were specially tailored with a scrupulous attention to design, fabric, color, and finish.

Each of the jerseys is photographed with the rest of the uniform (shorts, socks, and even in some cases belts) and accompanied by a brief discussion of their history in the sport along with images of that jersey as worn by major players from each era. In addition, a fold-out is included with all the uniforms shown side-by-side to show their evolution.

A unique and completely novel book with never-before-seen material for fans and members of the club.

**Roger Cruz** is an unusual collector who has been passionate about the club's uniforms since he was a little boy and he wanted to know why Barça had changed its uniform several times in the course of its history.
